FROM THE PRINCIPAL'S DESK...

The Diocese of Toledo provides a great deal of support programs and continuing education opportunities for school Principals. At the recent Principal's Meeting, a research report was presented on the past, present and future of Catholic education. With information about a continual decrease in numbers of students in Catholic schools since 1962 in the report, St. Joseph School is one of the few schools who have increased in population. We are proud of this accomplishment and hope to continue this school population increase.

As a parish community, why do we need to continue to find resources and strength to carry on the mission of providing Catholic education to our families? When we know and promote our visible, tangible product of Catholic schools, we have our answer to that question. We produces life skills in children through immersion in a community environment designed around our faith. Students then experience formation into fully developed beings—persons who know, love, and will continue to serve God forever.

Our students show signs of normal child-like behaviors, as they are still in formation. But at their very core, they are developing the quality characteristics that continue to create a desire in their hearts and minds to become servants and seekers of God's will in their lives. Faith knowledge protects and prepares them to seek an identity that takes their awareness outwards to needs beyond themselves.

As you continue to invest your prayer life, your time and your treasures in St. Joseph Parish and School, be assured you are participating in a very holy mission that will bring blessings forever.

Principal

A FAMILY PERSPECTIVE: The widow in today's gospel invested "everything she had." We are called to totally invest our trust, love and forgiveness in our family because this is the currency which glues a family together. Marriage and parenting are not for part-timers; they are full time careers demanding total investment.
